

# Mainzy K Debut Single

# Mainzy K

Graz-based, Nigeria-born, talented soul singer stepping on the scene with his debut single „Better“

**With the release of „Better“ Mainzy K delivers finest, contemporary r`n`b sound.**

On **February 18th 2022**, the 19 year old musician releases his first single „Better“ which will be part of his upcoming **EP "Journey"** scheduled for late spring of 2022. Mainzy wrote all the songs himself as, as he says, a form of relief.

He teamed up with producer **Tobi Frick**, who has been around for quite a while now, involved in various musical disciplines, especially known for his electronic works..

The song is a midtempo r`n`b track with a catchy hook, soulful vocals and harmonies in a fresh contemporary pop sound. It tells a story of regret and lost love, also portrayed in the accompanying video.

***“More than anything my goal is to find my own unique sound.”***  
-Mainzy K

## From Africa to Europe

At the age of 12 **Emmanuel Okeke Osinachi** started to play the piano and write songs. Growing up Mainzy was inspired by artists such as Styl Plus, Wande Coal, Craig David, 112 and Usher.

Then five years ago Emmanuel migrated from **Lagos State, Nigeria** to **Graz, Austria**, where he continued to write. In 2020 he found a new producer and together they started to work on new songs. Mainzy K does not see his sound in a particular genre of music, but rather believes in a more eclectic approach. Therefore he is constantly creating and fusing new sounds and music to form his own unique style.

## A chance meeting

At a Photoshoot of a model friend, Mainzy met photographer **Tim Ertl** to whom he played a couple of his songs. Tim, also a long time DJ and cofounder of the famous **spring festival Graz**, was not too convinced of the production, but could definitely hear the quality of the vocals. So he connected him with Tobi.

After a brief test recording session where Mainzy played the piano and freestyled over, it was decided upon to start working on an EP with new songs and a sound that fit his idea of sound more.

To round things up it all was taken to **Heinz Luschtinez** at **zollfreizone studios** for final mixing, and since he could see the potential, he proposed to release the EP on his label **For Real Music**.
